GLOBAL LEARNING OUTCOMES

CLIMATE ACTION

Students can explain the significance of the threat that climate change poses to life-forms on earth

They can describe in simple terms the connection between climate change and migration

Students can explain how and why climate change affects some places and communities more than others e.g. people in the majority world

Students understand that climate change will have an effect on the future of their lives and the lives of everyone in the world

Students can name some different consequences of climate change and how these affect people, animals and plants

SMSC: Ability to recognise and value the things we share in common across cultural, religious, ethnic and socio-economic communities. Investigating and offering reasoned views about moral and ethical issues. **British Values:** Mutual respect and tolerance of different beliefs, individual liberty.

Action

Join the Climate Coalition

They are the biggest group in the UK dedicated to take action against climate change. They work to bring together different organisations to campaign for politicians to take action.
