

## Lesson: Climate Action Lesson 4 of 5

### ACTIVITY OUTLINE

**Group work: researching the impacts of climate change in various Latin American countries**

**Designing posters to present the information they have researched**

**Resources:**

**Collection of Links to use for research (Country profile internet links pdf) check all the links work before delivering the lesson**

### CURRICULUM OUTCOMES

**Develop vocabulary linked to the environmental and social impacts of climate change**

**Use of authentic resources: read literary texts and listen to audio files in the language (such as personal stories, comments) to stimulate ideas, develop creative expression and expand understanding of the language and culture**

**Indicate the causes and consequences of a problem in Spanish using connectives and linking words**

**Practice listening skills**

### Lesson: Climate Action Lesson 4 of 5

## GLOBAL LEARNING OUTCOMES

Students can explain the significance of the threat that climate change poses to life-forms on earth

CLIMATE ACTION

They can describe in simple terms the connection between climate change and migration

Students can explain how and why climate change affects some places and communities more than others e.g. people in the majority world

Students understand that climate change will have an effect on the future of their lives and the lives of everyone in the world

Students can name some different consequences of climate change and how these affect people, animals and plants

**SMSC:** Ability to recognise and value the things we share in common across cultural, religious, ethnic and socio-economic communities. Investigating and offering reasoned views about moral and ethical issues. **British Values:** Mutual respect and tolerance of different beliefs, individual liberty.

## Action

### Join the Climate Coalition

They are the biggest group in the UK dedicated to taking action against climate change. They work to bring together different organisations to campaign for politicians to take action.
