### Lesson: Health, Happiness & Wellbeing 2

#### GLOBAL LEARNING OUTCOMES

#### GOOD HEALTH AND WELL-BEING

Students can explain that good health is a state of well-being, not just an absence of disease

Students can give an example of social inequality in healthcare and how Universal Health Coverage can help address this

Students can explain the importance of international action to improve healthcare on a global level

**SMSC:** Ability to be reflective about their own beliefs and perspective on life, investigating and offering reasoned views about moral and ethical issues

**British Values:** Mutual respect and tolerance of different beliefs, individual liberty

## Action

You can spread awareness about the work of charities helping to overcome barriers to health.

Spend some time researching the work of different healthcare charities.

Choose one or two that you like especially, and try to spread the message of their work and achievements by sharing the information you have found with family and friends.
